

## Expanding the National Health Expenditure Accounts (NHEA) Technical Documentation

**Figure 6a: Ratio of total spending: Adjusted NHEA and MCBS by Service Categories: 2009**

**Note:** Figure 1 gives the adjustment factor for different types of services. Overall, the adjusted National Health Expenditure Accounts (NHEA) spending is 11 percent higher than the total spending reported in 2009 MCBS. We use these adjustment factors by service categories to adjust MCBS reported services to the national level.
